# Peter Lodri

## Week 1 review

# This week's project

https://szepnapot.github.io/anakin/

# Git

The purpose of a VCS

How awesome after you learn it

You can host a webpage!

# Box-model

The reason why it's a "markup language"

Structural thinking

margin: -20px

# Learning from fails

Dots are important!

DETAILS!

Always check the path for external files

# Future

How awesome is advanced selecting

```css
.summary, .summary + ul {

  font-size: 20px;

}
```

span[class]
